

Braden Gregory Aged 18

APPRENTICE – METAL FABRICATOR

Length of service: 1 Year 9 Months

Job Description: Apprentice Metal Fabricator working with heavy & complex structural steel sections to create large and intricate projects at the highest level possible.

What have you learnt so far: I have learnt through the help of the Boweng staff to believe in my abilities and that I can complete difficult and high quality projects.

What are your career goals: To complete my apprenticeship and continue to develop my knowledge in this ever changing industry.

Ryan Reschke Aged 17

APPRENTICE – METAL FABRICATOR

Length of service: 9 Months

Job Description: Apprentice Metal Fabricator working with heavy complex steel structures.

What have you learnt so far: I have learnt to use plant & equipment relevant to my role in the workshop. I appreciate learning tips and tricks on how to weld and grind, etc from other tradespeople at Bowhill Engineering.

What are your career goals: Finish my apprenticeship to become a qualified Metal Fabricator and follow the opportunities that arise.
