

# IN THE BUSINESS OF BRILLIANT

## Congratulations Bowhill Engineering 2014 SA Regional Business of the Year

If you need to build a bridge, give Bowhill Engineering a call. They proudly take on complex jobs that deliver results with flair. And not just bridges. They've built ferry landings, maintenance platforms, even weirs for the River Murray. It started in the 70s as a farm machinery workshop. Today, Jeremy and Jodie Hawkes oversee a multi-million dollar company that uses cutting edge technology to make their clients' biggest steel fabrication dreams come true.
