## **TO WHOM IT MAY CONCERN**

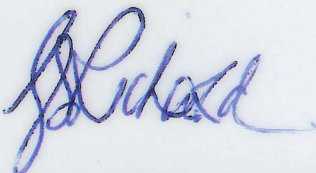

*Richardson Builders have recently started working with Bowhill Engineering. Most recent is a dental surgery project that comprised approximately 5 tonnes of complex steel detailing, fabrication, surface treatment and erection, which were carried out by Bowhill Engineering.*

*We have found them to be accurate, reliable and able to provide quality workmanship. Their access and integration with modern surveying equipment has been successful in this application and I can see its use being commonplace in future projects.*

*We will continue to work with Bowhill Engineering and would recommend them for any projects in this field.*

Yours faithfully

**RICHARDSON BUILDERS PTY LTD**

**GRAEME D RICHARDSON**  
(Managing Director)
