CAREERS IN AUSTRALIAN STEEL

FABRICATOR

Considering a career in the trades?
Like welding, cutting or bending?
Want to build things, from bridges and roads,
through to buildings and rail infrastructure?

A career as a steel fabricator could be for you.

TRAINING & CAREER PATHWAYS

The steel industry offers well-defined training and career pathways. An apprenticeship combined with study is the traditional pathway for fabricators. You can even start training while you're still at high school. Courses include:

- Certificate II in Engineering,
- Certificate III in Engineering - Fabrication Trade (Heavy Fabrication, Light Fabrication)
- Certificate IV in Engineering (Fabrication)
- Diploma in Engineering - Advanced Trade

There are countless career pathways in the steel industry generally - and for steel fabricators specifically. If you want to build your skills, start a business or lead a team, steel is the way to go.

EXCITING ROLES

Steel fabricator is the perfect job if you:

- enjoy hands-on work
- have attention to detail
- relish problem solving

You'll use machines, computers and hand-tools to produce exciting steel products in a workshop or production setting. You'll work with builders to deliver exciting new steel designs like steel-framed buildings and bridges.

You'll also enjoy a highly competitive salary.

EXCITING PEOPLE

The steel industry is a dynamic, high-paced industry with motivated, creative people. The best steel fabricators:

- are methodical and capable of a high degree of concentration
- have an ability to read drawings and good hand-eye co-ordination
- take a practical approach to creating things

SOUND LIKE THE CAREER YOU'VE BEEN LOOKING FOR?
